Worked from Home	101	1.3%	8,533	3.2%

**Data Source:** U.S. Census Bureau; American Community Survey, 2018 5-Year estimates, Detailed Tables; generated using data.census.gov

**Methods and Notes:**

- Census data provided in this report includes the following Milwaukee census tracts that most closely align with the Near West Side boundaries, with the full tract included unless a weight is noted in parentheses (weight): 122 (.5), 123, 124 (.333), 133, 134, 135, 136, 137, 146, 147, 148, 149, 1864. Since the census tracts do not align with the individual neighborhood boundaries, census data is only provided for the full Near West Side area.
- Poverty is based on the population for whom poverty status is determined.
- Labor force participation and unemployment are based on estimates using the percentages provided at the tract level relative to the population, weighted by tract, then summed for the entire Near West Side area.
- Public transportation used for work is relative to the working population above the age of 16.
